A fresh mountain breeze

Fresh mountain air would work wonders on office workers, but sadly bringing all that air into the city to ventilate workspaces would be quite a challenge. However, BuzziSpace has the next best thing. The shape of the BuzziFrio Machu and BuzziFrio Picchu room dividers recalls the rocky mountains of Peru, thus visually transforming an office space into a wide-open landscape. The playful shapes and matching colour tones add that touch of humour to an office that we so very much appreciate at BuzziSpace. Furthermore, BuzziFrio is perfect for dividing up a large space and for regulating acoustics. As BuzziFrio consists of three panels set closely together, it has a large surface area that enables it to effectively regulate sound in a space. BuzziFrio is available in the standard BuzziFabrics and can also be covered with fabrics from selected Kvadrat collections.

Composition

Baseplate

The BuzziFrio Baseplate is made out of powdercoated metal.

Colour baseplate: RAL 9005 black or RAL 9006 silvergrey

Panels

The BuzziFrio Panels consist out of honeycomb cardboard covered with Felt or Fabric (see p.5 Felts & Fabrics) with an integrated metal profile for assembly.

Installation

The configuration of the BuzziFrio can be chosen individually depending on the environment it is placed in and personal preferences.

1. The panels do not have a specific order. You can choose what panel you place in the front, middle or back.

2. The panels can be installed within a range of 12 cm | 4.72" to the right or left from the centre of the baseplate.
